

Weekly Product Sync — Logistics

Last updated: 2026-08-01 | Platform: Google Drive > Team Docs | Owner: Product Team

Overview

The Weekly Product Sync is a recurring meeting held every Tuesday at 10:00 AM, lasting 30 minutes. It rotates between two conference rooms (Room A / Room B) depending on availability, with a video link always provided for remote attendees.

Attendees

Core attendees include the Product Manager, Engineering Lead, and QA Lead. Other team members are welcome to join as observers when relevant topics are on the agenda.
